

## Ethics Committee Meeting Schedule

The Ethics Committee operates on a regular basis and convenes at least once per semester to review matters related to ethics, academic integrity, and the promotion of ethical standards within the university community.

In addition to its regular meetings, the Committee may convene extraordinary meetings upon request of the Rector, Committee Chair, or when ethical issues requiring consideration are submitted by employees, students, or other stakeholders. The frequency of such meetings is determined by the nature and urgency of the matters under review.

Meeting dates are approved by the Committee Chair and communicated to members in advance.
